by ICT-based Adaptation to Climate Change in Cities

1_ THE CLIMATE CHALLENGE

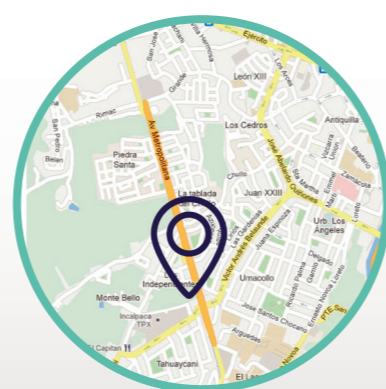

2_ THE DIGITAL SOLUTION

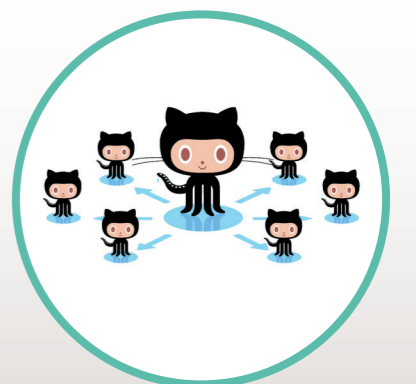

3_ THE IMPLEMENTATION

PRIVACY
ICT-A Privacy and Data Protection Training aimed at public officers and citizens.

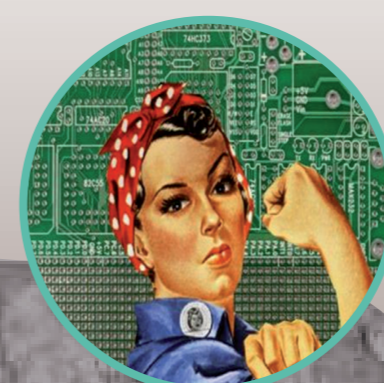

INCLUSION:
Prototyping and testing the digital solution with citizens from informal settlements. Visiting markets and schools with tablets and a TV to include those citizens without internet access, in hand with other on-site activities like mappathons to promote digital inclusion.

UPSCALING
Documentation of the solution and coding. The transfer package, including the source codes are made publicly available to be utilized by others.

GENDER
Ex. Close work with social enterprises that empower young women to work in the digital sector.
