by ICT-based Adaptation to Climate Change in Cities

## 1\_ THE CLIMATE CHALLENGE

## 2\_ THE DIGITAL SOLUTION

## 3\_ THE IMPLEMENTATION

**PRIVACY**  
ICT-A Privacy and Data Protection Training aimed at public officers and citizens.

**INCLUSION:**  
Prototyping and testing the digital solution with citizens from informal settlements. Visiting markets and schools with tablets and a TV to include those citizens without internet access, in hand with other on-site activities like mappathons to promote digital inclusion.

**GENDER**  
Ex. Close work with social enterprises that empower young women to work in the digital sector.

**UPSCALING**  
Documentation of the solution programming and coding. The source code is made publicly available to be utilised by others.
